

Knight™

Haven Range

Redefining the workspace.

Haven is where purposeful design meets everyday performance.

Designed in Germany and developed with workplace well-being in mind, Haven reimagines desking through a lens of architectural precision and functional clarity.

Crafted to support the rhythm of contemporary work—from agile teams to individual focus—Haven brings an elevated sensibility to every environment.

Whether used in commercial fit-outs or curated home offices, Haven blends expressive form with enduring strength.

Featuring a sleek white frame paired with an Atlantic Oak top, the Haven SSD desk combines style and functionality.

Smart design
that performs
every day.

**Design-led. Performance-driven.
Purpose-built.**

Every line and detail in Haven is crafted with precision and intent. The result is a desk that not only looks exceptional but works harder—delivering seamless performance day after day.

- German-designed
- Whisper-quiet electric adjustability
- Digital controls with memory presets
- Refined melamine top finishes
- Integrated cable management
- Privacy screen compatibility
- AFRDI and BIFMA certified

DESIGNED
IN GERMANY

AFRDI
LEVEL 6

BIFMA

Work that moves with you.

Haven supports sit-to-stand flexibility for healthier, more dynamic working.

Whisper-quiet operation, anti-collision safety, and memory presets create intuitive movement throughout the day. Users are empowered with the freedom to sit, stand, and move, enhancing energy, focus and overall well-being.

- Adjustable height: 630-1280mm
- Motor speed: 35mm/sec
- Weight rating: 140kg
- 3 programmable presets

Clarity in
construction.
Flexibility in
form.

Haven is built on a robust steel frame with refined finishes—designed to last and adapt. Available in single, double, and workstation configurations, it supports flexible layouts without compromising strength or stability.

From its precision-engineered legs to its commercial-grade tops, every element is made for lasting use and seamless integration into smarter workplace design.

Options for every space.

Designed with
intent. Built with
integrity.

Quality and sustainability are embedded across Haven's life cycle, from materials and packaging to long-term durability. Our Haven range meets and exceeds rigorous certifications and standards to deliver superior durability, safety and environmental responsibility.

Supporting Knight's commitment to a more sustainable future, all Haven desking is shipped in eco-friendly packaging. We encourage responsible disposal through the appropriate recycling channels, supporting our initiative to reduce our carbon footprint by using materials that are safer for the environment.

A desk that
stands the test
of time.

Knight has spent decades refining what makes furniture last. With Haven, we combine precision engineering with rigorous testing and a deep understanding of modern workspaces.

Each desk is tested to simulate over 15 years of daily use. That's why we offer one of New Zealand's most trusted warranty in commercial furniture—a promise of performance and peace of mind.

For full warranty terms, visit knightgroup.co.nz or speak to our team.
